ITALIAN FOOD FOR SMART PEOPLE

SMART ITING

Smart Italian Food&Beverage at its best

We scout for Italian excellence-organic-vegetarian products but we are also fond of functional food and food supplements: our aim is to provide Hong Kong distributors and retailers with products caring the highest content of taste and health at the lowest price as possible.

We always have our eyes on consumers' satisfaction: product safety is as important as taste. List of ingredients should be the shortest possible to grant the best product's wholesomeness.

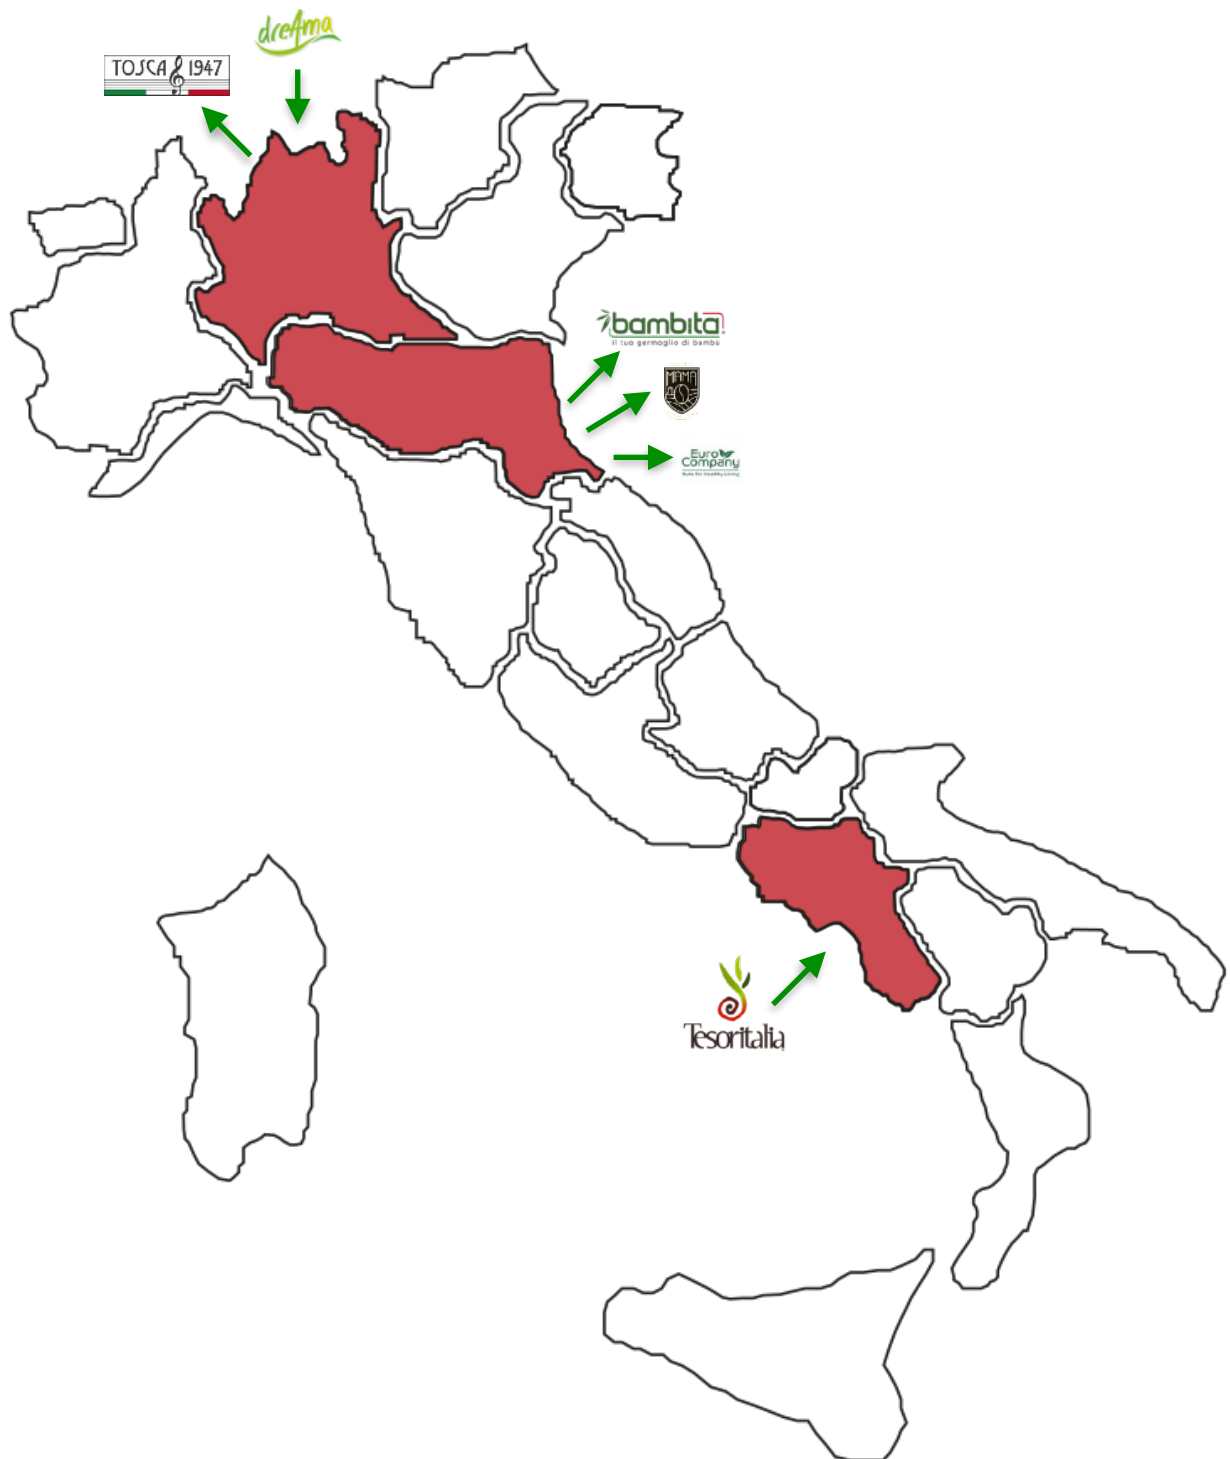

We look for great products. We partner with their producers.

TOGETHER WE WIN

We aim to become a real partner for distributors and horeca players, granting an efficient and satisfactory service.

LEGENDA

Veganism is a type of vegetarian diet that excludes meat, eggs, dairy products and all other animal-derived ingredients. ...

A gluten-free diet is a diet that excludes the protein gluten. Gluten is found in grains such as wheat, barley, rye, and a cross between wheat and rye called triticale. A gluten-free diet is essential for managing signs and symptoms of celiac disease and other medical conditions associated with gluten

Organic food is produced by methods that comply with the standards of organic farming. Standards vary worldwide, but organic farming features practices that cycle resources, promote ecological balance, and conserve biodiversity. Organizations regulating organic products may restrict the use of certain pesticides and fertilizers in the farming methods used to produce such products. Organic foods typically are not processed using irradiation, industrial solvents, or synthetic food additives
